Education

Lyceum of Alabang – Graduate BS in Computer Engineering
August 2021 – July 2025

- Developed Capstone Project Sticker Vending Machine integrated with NUC, Arduino Uno and Full stack Python Environment on Iot within 6 months of preparation of the start – up presentation.
- Developed Computer Elective, AI and Machine Learning within 1 year of extensive learning with Python Environment and met it's requirements
- Presented a Documentation and Capstone Project with Faculty Attendance Monitoring System using PHP, HTML, CSS and Javascript within 3 months.

Joysis TVI – JAVA Programming NC III
August 2024 – November 2024

- Completed 400 hours of formal training, including 200 hours of Supervised Industry Learning (SIL), demonstrating hands-on application of core programming and system development skills.
- Developed a Capstone Project: Library Management System using MVC architecture, Data Structures (Linked List), jQuery, and Object-Oriented Programming (Class Methods). Integrated UML Case Diagrams to represent system flow and logic, achieving a 90% passing grade.

TAHA Foundation x Uplift Code Camp – Frontend Programming Bootcamp Batch 1
April 2025 – present

- Extensive training in front end fundamentals (HTML, CSS, Javascript) with inclusion of React front end framework.
- Presented projects, and activities with real – world applications.
- Adapted quickly to diverse tech stacks, learning and implementing new technologies on the spot to meet project requirements.
- Weekly updates on the progress in modules and one on one mentorship with following projects and teaching web development.

Experience

Snapp Ventures Inc. – UI/UX Design and Quality Assurance Intern (Internship)
January 2025 - May 2025

- Designed user-centered UI mockups using Figma, aligning closely with client specifications and feedback cycles, contributing to a 20% faster design approval turnaround.
- Conducted quality assurance testing for Android and iOS mobile apps, ensuring cross-platform functionality.
- Deployed and tested websites using Vercel and Netlify, improving deployment efficiency.
- Executed comprehensive QA testing across mobile environments, identifying and documenting bugs to improve app stability pre-release.
- Gained hands-on experience with responsive design, design systems, and basic HTML/CSS and Javascript

Tech Navy Phil – Fullstack Web Development Intern (Internship)
June 2025 - Present

- Built projects using core web technologies including HTML, CSS, JavaScript, React, and Ruby, resulting in creating a HRIS website for client's requirements.
- Deployed full-stack applications using Vercel for front-end hosting and Render for back-end services, enabling seamless and scalable project delivery.
- Enabled automatic deployments from GitHub repositories, using Git webhooks to trigger CI/CD workflows on each push to the main or dev branches.

Direcho Trabaho PH and Coding School – React Framework Bootcamp Trainee (Training)
April 2025 – June 2025

- Extensive Training with React framework fundamentals given by mentor trainings, projects, activités and bootcamp proper.
- Developed Capstone Training Blog App with Mock – up design in Figma and Presented on June 30 with 1 months of prototyping and development.
- Built multiple React-based web applications using functional components, React Hooks (useState, useEffect), and React Router for client-side navigation.
- Implemented responsive UI designs with Tailwind CSS, ensuring cross-device compatibility.

Certificate

DICT Region IV – A – Web Development using PHP	WPH Academy – WPH Coding Bootcamp Certificate
Design Camp – Graphic Design Course Certificate	Lyceum of Alabang – Project Management: Guide to Future Project
Technovative Learning Center – Mechatronics Servicing NC II	Virtual Protocol – Completing Data Scraping Bootcamp II
Campus Devcon – Tech Nexus 2024 Certificate	Cisco Networking – Networking Basics
DICT Region I – AI 101: Artificial Intelligence Undestanding	Clair Voyance – Virtual Assistance Training Certificate

Skills

Tech Stack : HTML, CSS, Javascript, Typescript, React, Java, Tailwind CSS, C++, C#, PHP, Laravel, MySql, Git, Gitlab, Python, Ruby on Rails, Node.js

Non - Tech Stack : Canva, Adobe Creative Suite, Figma,

Interest: Public Speaking, Volunteering, Mentorships, Event Planning, Marketing
