Johnrick E. Rabara

Full Stack Web Developer · UI/UX Design · Quality Assurance

Computer Engineering graduate and full-stack developer building FLOW, a finance, logistics, operations and workforce platform, in React and Laravel. Two years of hands-on work across front-end and back-end development, deployment (Cloudways, Vercel, Render) and CI/CD, plus UI design in Figma and manual QA on web and mobile.

EXPERIENCE

PRDGM Mugen Trading Corp
Aug 2025 – Present
Full Stack Web Developer

- Build **FLOW**, a single platform for finance, logistics, operations and workforce, in React and Laravel within an Agile Scrum team.
- Deploy and maintain it on a Cloudways enterprise server: provisioning, staging-to-production releases, SSL and DNS, and monitoring.
- Support clients directly with onboarding and troubleshooting, and ship fixes and enhancements from their feedback.
- Design and ship responsive landing pages that support marketing and client acquisition.

Tech Navy Phil
Jun 2025 – Aug 2025
Full Stack Web Development Intern

- Built an HRIS to client specifications with a React front end and a Ruby on Rails back end.
- Deployed the front end to Vercel and the back end to Render, with CI/CD builds triggered by pushes to main and dev.
- Ran the Rails stack in a Linux environment (WSL, Ubuntu).

Snapp Ventures Inc.
Jan 2025 – May 2025
UI/UX Design & Quality Assurance Intern

- Designed Figma mockups through client feedback cycles, contributing to a 20% faster design approval turnaround.
- Ran manual QA on Android and iOS apps, documenting bugs and usability issues before release.
- Deployed and tested websites on Vercel and Netlify with the development team.

EDUCATION

BS Computer Engineering
2021 – 2025
